Education

College of Engineering Guindy, Anna University — Chennai, India
B.E. Information Technology | CGPA: 8.9/10 — *2023 – 2027*

Sir Sivaswami Kalalaya Higher Secondary School — Chennai, India
Class XII: 97% | School Topper — *2021 – 2023*

Experience

Product Manager Intern — Jun 2026 – Jul 2026
Appian | Platform Engineering — *Chennai, India*

- Owned the end-to-end adoption strategy for a cloud infrastructure service projected to deliver **$1 million** in annual cost savings, defining adoption processes, team responsibilities, risk-based rollout plans, and success metrics.
- Authored an Architectural Decision Record in collaboration with engineers, evaluating 6 infrastructure provisioning approaches, shortlisting 3 viable alternatives, and securing **leadership approval** for implementation.
- Collaborated with a cross-functional platform team to identify rollout challenges, exchange adoption strategies, and incorporate key learnings into the implementation plan.

Projects

Retail Billing and Analytics Platform | *Electron.js, React.js, SQLite* — GitHub

- Built and deployed a retail billing application used for **50+ daily transactions**, addressing checkout, invoicing, and sales tracking needs of a local business.
- Worked directly with the store owner to gather requirements, incorporate feedback, and iteratively **refine UX**.
- Introduced automated invoice generation, tax calculation, and a sales analytics dashboard to streamline billing operations and provide **insights** into sales performance.

Explainable AI Credit Scoring Platform | *Python, XGBoost, SHAP, React* — GitHub

- Developed an AI powered credit scoring application that translates financial input data into predictive insights through an accessible user interface.
- Integrated SHAP based explanations to help users understand the key financial factors influencing their predicted credit scores, improving transparency of AI predictions.

Leadership & Extracurricular Activities

Director of HR and Logistics | ACM Student Chapter, CEG — Jun 2026 – Present

- Organized the student community for CODE, an annual placement and internship preparation initiative, by forming student groups and setting up a WhatsApp community to facilitate peer learning and communication.
- Led a team of coordinators to conduct a new event with **250+** participants, managing venue capacity constraints and securing administrative approvals for ACM events.

Head of Design and Video Editing | SAPTHAM, Anna University — Jul 2026 – Present

- Led design and video editing for SAPTHAM, creating posters, promotional videos, and social media content for club activities.

Deputy Head of Placements | ISTA, CEG — Aug 2025 – Jul 2026

- Supported placement related initiatives, student coordination, and departmental career development activities.

Video Editor | The Guindy Times — May 2024 – Jul 2025

- Edited interviews and social media reels for The Guindy Times, creating engaging visual narratives for its social media page with 10K+ followers.
